The biannual "Terrorism – studies, analyses, prevention" presents scientific articles and educational materials on the challenges related to the fight against terrorism faced by Poland and other NATO member states. The topics of the articles cover e.g. legal and organizational aspects of increasing the effectiveness of anti-terrorist systems, ways of building resilience to terrorist attacks, new technologies as tools in the hands of terrorists, historical issues related to terrorism and their influence on the contemporary realities, educational activities in the field of anti-terrorist security conducted for various social groups. Foreign affiliation of some members of the Academic Editorial Board, reviewers and authors as well as the English-language translation of the journal are aimed at reaching a wider group of readers.
